Summary

Aspiring Product Manager with **3 years of experience** spanning Deloitte and founder's office roles at early-stage startups. Experienced in translating customer and business needs into product requirements, user flows, feature prioritization, and AI-enabled prototypes. Thrive in fast-paced, high-ownership environments, collaborating across teams to deliver user-centric products that solve real-world problems. Comfortable with any shift timings and available immediately.

Experience

Founder's Office Associate - Product

Sept 2025 – June 2026

EMELEX Business Solution LLP – PI Dot (Early-Stage Startup)

Hyderabad / Remote

- Partnered directly with founder to translate early-stage vision into **visual prototype** along with **structured execution plans**; owned **cross-functional delivery** across product, operations, and marketing with no predefined scope.
- Supported PI DOT, the product wing, by reviewing in-development product flows and giving customer and client POV inputs to freelance developers.

Associate Analyst – Advertising, Marketing & Commerce

Feb 2024 – Jun 2025

Deloitte USI Consulting

Hyderabad

- Applied **AI-assisted QA workflows and prompt engineering** to accelerate validation cycles and automate recurring checks on enterprise data pipelines for Fortune 500 clients (Wells Fargo, LG Brazil).
- Conducted **root cause analysis** on recurring platform failures across datasets of 5–18M+ records – surfaced schema mismatches, null propagation errors, and system inconsistencies; reduced incident resolution time by 28%.
- Partnered with **product owners and technology teams** to understand enhancement requirements, validate fixes, and monitor post-launch platform behaviour across Agile sprints.
- Documented recurring failure classes into **SOPs and process documentation**; supported knowledge transfer activities and reduced repeat escalations by ~22%.

Product Development Associate

June 2023 – Feb 2024

Acumen Connect (Early-Stage Startup) — 4 months internship, followed by PPO

Hyderabad

- Proposed and scoped a **GenAI-based automation product** for WhatsApp customer communications – researched feasibility, defined use case scope, and presented an execution plan to leadership.
- Owned operational and product delivery in a high-accountability startup; built **6+ SOPs** improving coordination efficiency by 15%.

Projects

SAATHI: Product Redesign Case Study | Product Strategy, PRD, Figma, AI, User Research | Vision

- Reimagined the SAATHI product from a product manager's perspective by identifying usability gaps and designing features including voice navigation, contextual financial guidance, and simplified onboarding. Authored PRDs, user journeys, wireframes, and feature prioritization for the proposed product vision.

BATUA: AI Finance Tracker | Product Design, UX, Fintech, Figma | Concept

- Designed a finance management platform for tracking balances, expenses, and financial health across multiple accounts; built information architecture, user flows, and feature specifications.

CorpSim AI: Multi-Agent LLM Platform | Claude API, FastAPI, PostgreSQL, Product Management | Prototype

- Built a corporate readiness simulation platform covering VDE, CRS scoring, and AI-driven stakeholder simulations; authored complete engineering handoff documentation including PRDs, release scope, and acceptance criteria.

Skills & Competencies

- **Product Management** : Product discovery, AI product design, PRDs, user journey mapping, feature prioritization, MVP scoping, roadmap planning, acceptance criteria, product analytics, stakeholder management.
- **Platform & QA**: UAT design and execution, smoke testing, defect tracking, issue validation, test case documentation, release support, CD pipeline integration
- **Agile & Coordination**: Agile/Scrum, JIRA, stakeholder coordination, cross-functional delivery, knowledge transfer, process documentation.
- **GenAI & LLMs**: Claude API, Gemini API, GPT / OpenAI, n8n, Lindy AI, prompt engineering, LLM output validation, multi-agent orchestration, NLP-adjacent workflows
- **Strategy & Delivery**: Technology operating model design, GTM strategy, stakeholder engagement, programme execution, Agile/Scrum, JIRA, SQL, Python, Postman.

Education

Symbiosis Institute of Computer Studies and Research, Pune

Aug 2020 – Jun 2023

Bachelor of Computer Applications, Symbiosis International University

CGPA: 7.9/10
